

**Agenda Item:** Presentation of the 2020 Reproductive Output Report by American Bird Conservancy

**Background:** American Bird Conservancy monitors bird activity and nesting on an annual basis at R.A. Apffel Park and Big Reef Nature Park. Each year, a report is developed that details observations made throughout the nesting season. In addition, American Bird Conservancy makes recommendations to Park Board Staff to further protect the habitat and birds that utilize the area.

**Staff Recommendation:** N/A

**Funding Source (if applicable):** N/A
