Bryson Frazier reported that the Park Board is currently in a health insurance pool with the City and Port via an interlocal agreement and that this pool is managed by a board of trustees. He shared that this pool balance has steadily decreased since 2017 and it is estimated that it could be upside down by 2023. He also shared that the Port is looking to withdraw from this pool. Mr. Frazier stated that the benefit plan is a good plan and after soliciting quotes for the Park Board individually, it remains the best benefit for staff at the lowest cost unless a large premium increase is presented. At this time, he reported that staff is recommending to stay in the pool until a decision has been made about the Port and the impacts of their decision since they were the main contributor to the fund deficit. He added that a final decision would need to be communicated to the City by November 1, 2021. In addition, He also would like to ask for a voting position on the Board that oversees this plan since both the City and Port have seats.
