

Agenda Item: Overview Of Save Our Shores Program For 2022

Background: In February 2019 the City of Galveston passed the Leave No Trace Ordinance stating that items left unattended on the beach between the hours of sunset and sunrise will be removed and discarded by the Park Board. The Park Board refers to this program as the “Save Our Shores (S.O.S.)” Program.

Collections in 2019 and 2020 exceeded 1000 canopies, while less than half that number were collected in Summer 2021. Staff directly attributes the success of this campaign to increased communication, signage, and beachgoer compliance.

The attached document outlines the program design and timelines for 2022.
