

Agenda Item: Discuss and Consider Approval of Picnic Shelters Installation at Seawolf Park

Background: Seawolf Picnic Shelter Installation --
This award will consist of installing two picnic shelters (matching the existing shelters) located near the playground.

The project components include:

- Installing two 11'x20' concrete slabs
- Installing two 11'x20' picnic shelters
- All cost associated with engineering and permitting
- All cost associated with obtaining Windstorm certification

The bid was sent out to multiple contractors. The Park Board received three responsive bids. This bid came in \$14,000 above the project budget, but with substantial savings from other projects within this same fund there is sufficient funds to cover this overage.

Staff Recommendation:

Staff recommends accepting the bid from Texan Services Industries LLC for the picnic shelter installation work at Seawolf Park for \$34,105.00. While the cost is \$1,005 higher than the lowest submittal the bidder has demonstrated their ability to perform the work, a proposal that clearly outlines the work performed and clearly covers all cost associated with engineering, permitting and windstorm certification. Other bids did not clearly demonstrate this information.

Funding Source (if applicable):

SW-70-5250 Capital Improvement.
