

**Agenda Item:** Discuss and Consider Approval to Amend the 2023 State Legislative Agenda

**Background:** Based on previous discussions of the Board indicating the need for clarification on the duties and powers of the Park Board as delineated by State statute, staff is seeking approval to amend the state legislative agenda to add this item. State statute endows the Park Board to hold governmental funds, authorize leases on managed properties and to have budgetary control over funding.

**Staff Recommendation:** Authorize governmental affairs to review and engage in conversations regarding the state statutes regarding the Park Board.
